

# AM-15 AIR ASSISTED SPRAYING MACHINE

## SUPERIOR PRODUCTIVITY FOR LARGE AREA DISINFECTION.

The AM-15 is a versatile spraying unit with the overall capacity to provide superior productivity for large area disinfection. The unit will out perform the commonly used handheld machines on the market today. The large 15-gallon tank provides continual usage – a one stop chemical source. Fill it and disinfect your entire facility.

- Versatile foam or misting with effective droplets at 15 microns
- Superior to commonly used handheld sprayers
- Quiet operation with noise levels as low as 60 dBA
- High capacity: 15 gallons provides continual usage - one-stop chemical source
- Discharge line length: 25 ft
- Handheld double-barrel misting wand with one nozzle or Polypropylene trigger handle with misting nozzle
- 3.5-Hour run time from full tank
- Power cable 9 ft
- Finance options are available - contact us for more info
