

HP LaserJet Managed MFP E800 Series Printer

POWERFUL WORKFLOW PERFORMANCE AND DESIGN

Now, you can accelerate your print and scan workflows to maximize business productivity, with the HP LaserJet Managed MFP E800 series. The result: more time for your core business and less time waiting for prints and scans.

With 7X more compute power than previous models, the HP LaserJet Managed MFP E800 series is a powerhouse of speed with all print, copy, scan, security, and other display subsystems integrated into a single chip.

PRINT/COPY AT FULL SPEED

Virtually every document can be copied or printed at full-engine speed (70 ppm) to meet high-productivity demands. What's more, the automated document feeder (ADF) features HP's Reverse & Retry technology so you may continue to work while your scan and copy jobs are running.

Compared to earlier generations, the E800 series features accelerated Fast Sleep to First Copy Output (FCOT) time which means it wakes up the moment you contact the 10.1-in color touchscreen.

DESIGNED FOR IMPACT

Today's workplace is more open and fluid, helping foster collaboration and communication among team members. Your HP printer can play a key role. Make a visual statement at your workplace with six distinct, easy-to-install color panels to suit your office décor, represent your brand and energize your office environment.
